

# OpenMinds

## Optical Illusion Art

In this class students explore art around a theme for the session. This session is almost magical with the theme of optical illusions. Students will build art skills, work with a wide variety of mediums, and have fun experimenting with different art tools while they create and learn about different optical illusions. Each class weaves in a life skill discussion, which is tied to the class theme for that day, helping the students to explore both art and life through that topic.
